

# Odmandakh Battulga, Senior Back End Developer

Ulaanbaatar, Mongolia, (+976) 8877-5432, b.odmandah@gmail.com

|         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| PROFILE | Senior Back End Developer with 7 years of diverse experience in developing innovative machine learning solutions and back-end systems. Expertise lies in implementing secure, scalable applications that drive efficiency and performance, leveraging technologies such as AWS and serverless architectures. A strong foundation in competitive programming and a passion for continuous improvement. Committed to advancing technology to solve real-world challenges. |
